Why Do We Need House Bill 1003?

At Advance America we believe that **every child deserves the opportunity** to get a first class, world class education!

It's a Parent's Responsibility!

Parents are responsible for raising their children and not the government!

Parents know what is best for their child!

Parents know what the best educational setting is for their child!

Money Should Follow The Child!

The money that is provided to educate a child should follow the child! If the parents want to choose the public school in their area, another public school, a charter school or a Christian school they should be able to and the money should follow the child!

House Bill 1003 – A Good First Step!

House Bill 1003 has been introduced by Representatives Bob Behning and Brian Bosma. It would provide **choice scholarships** to families to help their child attend a private school if their family meets certain income requirements. The private school would still be **free to operate** as they have in the past with regard to their internal operation.

Action Plan!

Please call or email your Representative with the following message:
